Soft Skills: Problem solving, Time Management, Team Collaboration, Communication Skills, Quick Learning Ability

Projects

- 1. Lifesolve AI** [live link](#) | [project code](#) | [server side code](#)
 - Users can get AI-powered guidance through an AI Chat Assistant and AI Problem Solver, with persistent chat sessions and streaming responses for personalized support.
 - Users can connect with other community members through direct messaging and receive notifications for comments, reactions, messages, and other platform activities.
 - Users can anonymously or publicly share personal problems, interact with the community through reactions and comments, and manage their own posts across different categories.
- 2. Micro Learning Hub** [live link](#) | [project code](#) | [server side code](#)
 - Students can browse, search, purchase, and enroll in courses, access learning materials, take online MCQ exams, track their learning progress, and participate in the educational Help Desk community.
 - Teachers can apply for approval, create and manage courses and online exams, add questions, monitor student performance, and interact with students through educational discussions.
 - Administrators can manage users, approve teacher applications, manage courses, monitor platform activities, publish announcements, and control the overall learning platform.
- 3. Fitness & Gym Management Platform** [live link](#) | [project code](#) | [server side code](#) | [Explain Video](#)
 - A comprehensive full-stack fitness management system designed for users, trainers, and administrators to manage fitness activities in a single platform.
 - Users can browse and search fitness classes, book sessions through secure Stripe payment integration, and track their booking history in a personal dashboard.
 - Trainers can create and manage classes, view enrolled students, and contribute to the community forum by sharing fitness-related posts.
 - Administrators have full control over the platform, including user role management (block/unblock, make admin), class approval system, trainer application management, and forum moderation.

EDUCATION

Diploma in Computer Science and Technology | Tangail Polytechnic Institute | [Current](#)
